Summary

Computer Science & Engineering graduate (**B.Tech, 9.1/10.0 CGPA**) with strong conceptual and practical grounding in low-level system programming, algorithm design, discrete mathematics, and Linux system administration.

Secured **All India Rank 2098** (GATE Score: 644/1000) out of **211,020 national candidates** in **GATE 2026 (CS & IT)** and **AIR 392** in **IIITH PGEE**.

Experienced in writing memory-efficient C applications, developing custom browser extensions (Manifest V3), automating workflows on Fedora Linux Workstation via Python & Shell scripts, and building cloud automation pipelines.

Education

Rajasthan Technical University – Jaipur, Rajasthan

Aug 2022 – May 2026

B.Tech (CGPA 9.1 / 10.0) in Computer Science & Engineering

- Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Operating Systems, DBMS, Computer Networks, System Programming, Microprocessors, Linear Algebra, Abstract Algebra.

Competitive Examinations

- **GATE 2026 (Computer Science & IT): All India Rank 2098** out of 211,020 registered candidates (Top ~0.99% nationwide) | **GATE Score: 644 / 1000**. Demonstrated comprehensive problem-solving mastery across core Computer Science disciplines.
- **IIITH PGEE (IIIT Hyderabad PGEE): All India Rank 392** nationwide out of ~10,000–15,000 candidates.

Certifications

- **Programming in Java (NPTEL National Elite):** Awarded **Elite Certificate (80% Score)** | Top performer out of 14,693 candidates (Jan–Apr 2024).
- **Problem Solving Through Programming in C (NPTEL National Elite):** Awarded **Elite Certificate (73% Score)** out of 3,749 candidates (Jan–Apr 2023).
- **Programming in Modern C++ (NPTEL Elite):** Awarded **61% Score** | 12-week course covering C++ specifications & STL (Jul–Oct 2023).
- **Salesforce Professional Certifications:** Salesforce Certified AI Associate (Credential ID: 6127333) & Salesforce Certified Associate (Credential ID: 6030076) (2025).

Technical Skills

Foundational Math: Discrete Mathematics, Linear Algebra, Abstract Algebra (Group Theory), Recurrence Relations

Systems & Languages: C, Modern C++, Python, JavaScript, TypeScript, Bash, SQL

Tools & Automation: Fedora Linux Workstation, Git, Vim/Emacs, Manifest V3 Browser Extensions, PyDrive, Telegram API

Projects

GATE Exam Mock Test Interface & Portal Engine

Web Application | JavaScript, HTML5, Local Engine

- Built offline-first mock test portal mirroring official GATE exam environment with virtual keypad and real-time score analytics.

Automated Test Series Data Pipeline & Archival Engine

Data Engineering | Python, JSON Data Pipeline

- Developed automated data extraction and JSON indexing pipeline to structure and archive practice test content.

PyQHub – University Semester PYQ Platform

Web Application | TypeScript, Web Architecture

- Developed web repository platform accumulating and searching previous year semester exam papers across technical universities.

WebTools Browser Extension

Chrome Extension | Manifest V3, JavaScript

- Engineered Manifest V3 Chromium browser extension featuring global hotkey search bar focusing ('/' shortcut) and Brave-to-Google image redirects.

FocusTube (YT Master) Productivity Extension

Chrome Extension | JavaScript, Content Scripts

- Built YouTube productivity extension to eliminate recommendation algorithms, hide feed clutter, and toggle UI elements dynamically.

Telegram to Google Drive Automated Cloud Pipeline

Cloud Automation | Python, Telegram API, PyDrive

- Architected cloud ingestion pipeline streaming Telegram channel media directly into Google Drive via OAuth2.

Infix to Postfix Converter & Expression Calculator Engine

Systems Programming | C Language, Data Structures

- Implemented mathematical expression parsing engine in C converting Infix to Postfix using custom stack structures.
